RENNIE'S SURPRISE COLLECTIONS OF BULBS

MORE GOOD THINGS FOR FIFTY CENTS AND ONE DOLLAR THAN YOU CAN GET IN ANY OTHER WAY

On and after November 10th we shall send out our Surprise Collections of Bulbs from the surplus stock on hand. Customers ordering these will receive many times the value of the bulbs at catalogue prices. These collections will be entirely of our own selection from kinds of which we have a surplus. No collection will be made up for less than Fifty Cents, and from that up to any amount the purchaser may desire. They will be sent free by mail. All "Surprise" Collections ordered previous to November 10th will be booked and shipped then, but we can continue sending them up to December. In ordering, state whether wanted for house or garden culture.

PLEASE READ CAREFULLY

WHEN SHIPMENTS CAN BE MADE.—The general line of bulbs will be ready for shipment in September. A few kinds (chiefly Roots and Lilies) are not ready for shipment before November, as they are not matured enough to take up before that time. Therefore please note that all general orders will be shipped as soon as received in September, and the balance will be forwarded as early in November as possible.

BULBS BY MAIL.—All bulbs herein quoted will be sent to any post office in Canada, prepaid, when ordered at printed prices, except where noted. Postage to Newfoundland—15 cents per lb., or fraction thereof—must accompany all orders, otherwise it will be deducted.

ORDERS.—All orders are filled in rotation as received. We would advise early orders to ensure their being filled complete, as later in the season some varieties become exhausted, when we must reserve the privilege of supplying another sort as near the color as possible, but shall always substitute an equal if not better variety than ordered.

REMITTANCE.—All orders must be accompanied with the cash for full amount of order, which may be sent by Registered Letter, P.O. Order, Postal Note or Express Order.

ADDRESSES.—Please be careful and write your Name, Post Office and Province plainly, that there may be no disappointment by orders being incorrectly sent.

Awaiting your esteemed orders, which will receive our most careful and prompt attention, we remain, yours very truly,

FLOWERING BULBS FOR AUTUMN PLANTING

No experience is necessary to grow plants successfully from flowering bulbs. The culture is so delightfully simple and interesting that anybody can succeed in producing a continual succession of gay blooms in the house throughout the grey winter months.

Most of the varieties in our Catalogue will thrive equally well under either house or garden culture.

In the house they may be planted in pots, window boxes or glasses; they may be kept back or brought on, to suit occasion.

Planted in the open garden, they may be had in flower as the snow disappears—happy heralds of Spring—rich in bloom and brilliant in color. Whatever the treatment, they are always certain to grow and flower. Planted “hit and miss” about the grounds or arranged in tastefully planned designs, they will spring up and flower almost more certain than the seasons.

WHY OUR BULBS ARE ALWAYS GOOD

We have always appreciated the importance of supplying first-class bulbs only, and have never cheapened the quality of our stock to compete with low prices. Competition in price has influenced many dealers who know better, to import and sell second-class stock. This is done for the purpose of saving, not only on the first cost of the bulbs, but more especially on the great amount of postage that is saved in sending them out. Strictly first-class bulbs of Hyacinths, Tulips, Narcissus, etc., are large and heavy and cost the dealer in postage a great deal more than second-class bulbs to say nothing of the first cost, which is nearly double. As a rule, these second-class bulbs do not give satisfaction, and the one who plants them is therefore disappointed and discouraged. We offer in this Catalogue nothing but strictly first-class stock.

EARLIEST FLOWERING BULBS

Crocus

The hardiest and earliest of all spring flowers, sending up its bright little flowers before the snow has fairly disappeared. They should be planted about 2½ inches deep and covered slightly during severe weather. They will flower easily in the house in moss, water or earth, with the same treatment as Hyacinths. Prices include postage, except 1,000 lots.

MAMMOTH FLOWERING CROCUS

GLORY OF THE SNOW

307. Chionodoxa Lucillæ.—This variety is one of the most beautiful of the Spring flowering bulbs, and should be planted in quantities. They flower with the snow-drops, and last a long time in perfection. Will produce an abundance of brilliant, sky-blue, white centred flowers 3 for 10c., doz. 25c

HYACINTHS

The Hyacinth is one of the most popular and beautiful spring-flowering plants for indoor and outdoor decorations. By careful management in keeping up a succession, they may be had in flower from the beginning of winter to the end of May. For a spring display in the open ground they are unexcelled. Brilliant effects can be obtained by massing different colors in varieties that grow about the same height and bloom at the same time.

Cultural Directions with every order.

FIRST SIZE, NAMED VARIETIES.

SINGLE HYACINTHS

EARLY "ROMAN" HYACINTHS

The flowers, while smaller than those of the ordinary Dutch Hyacinth, are produced in much greater abundance, each bulb producing several very graceful spikes; their delicious perfume, earliness and profusion of bloom have made Roman Hyacinths exceedingly popular. They are not considered hardy enough for open ground.

TULIPS

Tulips are universal favorites, and their ease of culture, combined with beauty of form and gorgeous coloring, renders them the most popular bulbs grown for spring bedding, and for winter flowering in the greenhouse and window garden they are incomparable.

For cultural directions see our pamphlet, "How to Grow Bulbs," free with every order.

The letters A, B, C, preceding the varieties, indicate their earliness of bloom. The A's flower together and are the earliest, B next, etc. The average height in inches is also given to aid in arranging flower beds. **ORDER BY NUMBER.**

When Tulips priced by the 100 are wanted sent by Mail, add 30c. for Postage on each 100.

SPECIAL COLLECTIONS OF BEDDING TULIPS

For the benefit of those who hardly know what varieties to combine in design bedding we have made up the following low-priced collections of the best solid, self-colored varieties, which work well together and flower at the same time.

All are fine large-flowering sorts, certain to give thorough satisfaction, and to produce the most brilliant effects.

174. **Single Tulips.—Four Colors**—For a round bed, 15 feet in circumference (5 feet across), 200 bulbs are required, planted 4 in. apart. 50 Pottebakker, Scarlet; 50 Chrysolora, Yellow; 50 Cottage Maid, Pink; 50 Pottebakker, White. Price \$3.00, by Express, not prepaid.

175. **Single Tulips.—Two Colors**—Round bed, divided into four quarters, 15 feet in circumference (5 feet across), 200 bulbs, planted 4 inches apart. 100 Yellow Prince, Yellow; 100 Artus, Scarlet. Price \$2.50, by Express, not prepaid.

PARROT TULIP

PARROT OR DRAGON TULIPS

A flower more bizarre, fantastic, or gorgeous, would be hard to find. A bed or clump of them always attracts much attention. They are six, seven and eight inches across, with petals toothed, horned, twisted and waved, now loosely incurved, now spread flatly out like a star. Some are yellow, some are crimson, or again dashed, flaked or feathered with green, gold or scarlet. They grow ten inches in height, and bloom just after the double Tulips.

180. **CRAMOISI BRILLIANT**.—A giant crimson flower with large, black centre. Does well in pots. 3 for 10c.; doz. 35c. postpaid; 100 by express \$1.20

LATE FLOWERING SINGLE GARDEN TULIPS

NEW DARWIN TULIPS

The new Darwin Tulips are late flowering Garden Tulips, and produce very large flowers of symmetrical form or on tall, strong stems, 2 feet high. They by far surpass in colors and brilliancy anything before known in Tulips. They include almost every conceivable color and shade, from the daintiest blue to the darkest violet, from soft rose to the most brilliant red, and from light brown to what is believed to be the darkest black in the floral world.

190. **SUPERFINE MIXTURE OF DARWIN TULIPS**.—Doz., postpaid, 30c.; 100 by express \$1.50

GIANT GESNERIANA TULIPS

The grandest Tulip in existence. Tall growing and late blooming, with large long leaves, and tall, erect flower stalks, which support great waxen blooms larger than tea cups, of the most vivid, glossy colors. They remain in bloom a long time.

PICOTEE EDGED TULIPS

210. **D24 MAIDEN'S BLUSH**.—Large, showy flowers, white pencilled and edged with crimson. Flowers same time as Gesneriana; fine for late flowering. Each 5c., doz. 55c., postpaid; 100 \$2.50, by express.

TWO MAGNIFICENT BULBS
FOR GROWING IN WATERCHINESE SACRED LILY
ALSO CALLED "JOSS FLOWER"

Chinese plants are as curious as Chinese people, and these wonderful bulbs, which will bloom in a bowl of water filled with pebbles, never fail to interest the whole household. While they may be grown in earth, they are most successfully cultivated, as by the Chinese, in water. They flower in clusters, with large waxy white blooms with yellow centre, very fragrant. Slits one-fourth inch deep up and down the sides of the bulbs near the top will aid the weak shoots to burst through the tough outer skin.

220. **LARGE SELECTED BULBS**.—Each 10c., 3 for 25c., doz. \$1.00, postpaid; original baskets containing 30 bulbs, \$1.50 per basket, by express or freight at purchaser's expense.

GIANT "PAPER-WHITE" NARCISSUS

223. These beautiful, graceful Narcissus will flower as early as Christmas, and are the best of all the European bulbs for growing in water. The flower is whiter than that of the Chinese Sacred Lily. We offer mammoth bulbs of these, imported especially, which are equally good for growing in earth. Grown in bowls of water like the Chinese Lilies, it should flower in from six to eight weeks. Planted in earth, use 6 or 8 bulbs in an 8-inch pan, which started in September will flower by Christmas. In planting from week to week, a succession of bloom can be had from early December to March. Each 6c., postpaid; doz. 60c.; if by post add 10c. per doz.

CHINESE SACRED LILY

NARCISSUS OR DAFFODILS

These flowers, so well adapted to the hardy border, are much admired by all friends of hardy flowers, and are found most useful for planting among hardy perennials and shrubbery as well as in solid beds and borders. They are equally valuable for growing in pots and pans for house decoration, as they are easily grown and make a splendid show.

Culture.—Same as for Hyacinths. The Polyanthus varieties are not hardy enough for our climate and should be grown in the house only.

SINGLE AND DOZEN PRICES INCLUDE POSTAGE.

SINGLE DAFFODILS

225. **BIFLORUS.**—Twin flowers borne on one stalk, white with yellow cup, exceedingly graceful. 3 for 10c., per doz.30c.

NARCISSUS

BERMUDA EASTER LILY

These are grand winter blooming pot plants of the easiest culture. They bloom profusely with ordinary care, and should be in every home.

NEW YELLOW CALLA

(Ready in November.)

330. *Richardia Hastata*.—An exceedingly rare bulb; frequently catalogued but seldom obtainable. We have ours in stock. It is similar to the spotted Leaf Calla in growth, excepting that the flowers are of a light yellow color. Each.....30c.

LITTLE GEM CALLA

(Ready in November.)

331. *Child's Everblooming*.—Of dwarf habit; rarely exceeds 12 in. in height; flowers of a good size, and snowy white in color; most desirable plant for house culture. Each 20c., 3 for.....50c.

WHITE CALLA

333. *Lily of the Nile*.—A well-known plant of easy culture, and in winter is one of our best window plants. Flowers pure white. Extra size bulbs, each 15c., doz. \$1.50; 2nd size, each 12c., doz.....\$1.25

RED CALLA

(Ready in November.)

335. *Arum Cornutum*.—A curious and novel plant producing red flowers spotted with black. The stems are oddly mottled green and white; foliage is palm-like and very effective. It is particularly showy and ornamental, fine for winter decoration. Price, 25c. each, 3 for.....60c.

NEW CALLA GODFREY

337. *EVERBLOOMING*.—The only really first-class Dwarf Calla. Flowers purest white, almost as large as the ordinary tall growing, and produces continuously throughout the year. We recommend it as being far the best Dwarf Calla in existence. Entirely distinct from any other. Each.....40c.

LILIES

THE TRUE BERMUDA EASTER LILY

(*Lilium Harrissi*)

THE FINEST WINTER FLOWERING LILY—THE EASIEST TO GROW

(Ready in September.)

Pure pearly white, deliciously fragrant, and a remarkable profusion of bloom, characterize this charming and celebrated Easter Lily. A profusion of bloom may be had throughout the winter and spring, if a number are planted and "brought in" at different times. To have a succession of bloom at least a dozen bulbs should be used. Place in sunny position, and the lilies will flower in a temperature of from 60 to 70 degrees in about eight weeks.

310. Mammoth Bulbs (9 to 11 inches in circumference).—Each 30c., 3 for 80c., doz.....\$3.00 postpaid.

311. First Size Bulbs (7 to 9 inches in circumference).—Each bulb produces 8 to 10 flowers. Each 15c., doz.....\$1.50 postpaid.

JAPAN EASTER LILY (*L. Longiflorum Grandiflorum*).—Ready in October. A variety bearing snow-white trumpet-shaped flowers of rare fragrance. Blooms later than the above.

315. Mammoth Bulbs (9 to 10 inches in circumference).—Each 20c., doz.....\$2.00 postpaid.

316. First Size Bulbs (7 to 9 inches in circumference).—Each 12c., doz.....\$1.20 postpaid.

320. *LILIUM CANDIDUM*.—Ready in September. The old-fashioned, pure white garden Lily, also known as Annunciation Lily. One of the hardest. Flowers snow-white, with heavy yellow stamens and sweet fragrance. Bears from 3 to 20 blossoms. This variety must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early blooming. Customers will do well to plant 12 or more for a permanent bed. Each 10c., 12 for \$1.00 postpaid.

HARDY JAPANESE LILIES

(Ready in November.)

321. *LILIUM AURATUM*.—Ivory white with crimson spots. Extra size bulbs, each 20c., 2 for 35c., 12 for.....\$2.00 postpaid.

322. *LILIUM SPECIOSUM ALBUM*.—Pure white with recurved petals, fragrant. Each 20c., per doz.....\$1.75

323. *LILIUM SPECIOSUM RUBRUM*.—White with a deep rosy band on each petal, fragrant. Each 15c., per doz.....\$1.50

324. *LILIUM SPECIOSUM ROSEUM*.—Rosy white, dotted with pink spots. Each 15c., doz.....\$1.50

CALLA LILIES—Continued

BLACK CALLA

340. *Arum Sanctum*.—The large wavy leaves, which are of a rich green color, veined light green, resemble those of *Calla Ethiopica*. The plant produces one large sweet-scented flower, raised on a slender but vigorous stalk of brown red, shading to a green at the upper end. The flower is about 14 inches long and from 7 to 9 inches across, of a brilliant dark purple and green underneath, somewhat wavy at the borders and curled at the smaller end; the spike rising from the centre of the flower is about ten inches long, velvet-like and quite black. Extra large bulbs, each.....20c.

SPOTTED LEAF CALLA

341. *Richardia Alba Maculata*.—Ready in November. This magnificent *Calla* gives excellent satisfaction; leaves deep, rich green, exquisitely ornamented with pure white marks; flowers pearly white with glossy black centre; very useful as a pot plant, easily grown. Each 15c., 12 for.....\$1.50

NEW HALF-DWARF CALLA

CALLA FRAGRANCE

342. A sweet-scented *Calla*, with the fragrance of violets and lilies. Of medium size and compact growth. It blooms profusely and multiplies rapidly. The foliage is unique, being handsomely fluted. For house or garden it is unexcelled. Very easily grown. Each.....25c.

HALF-DWARF CALLA

343. **NEW HALF-DWARF**.—Of half-dwarf compact habit, glossy foliage, large snow-white flowers; the old *Calla* is a very shy bloomer, but this is always in bloom, summer or winter. Can be grown in the open ground in summer and lifted in the fall, or it may be kept in pots all the time. A great improvement on the old *Calla*. Each.....25c.

MISCELLANEOUS BULBS FOR FALL PLANTING

TO FLOWER DURING WINTER AND SPRING IN THE HOUSE AND GARDEN

ALLIUM NEAPOLITANUM

348. This is one of the most beautiful bulbous plants for conservatory, house or window-garden. It is of easiest culture, and can be grown by any one. The flowers are star-shaped, and are produced in large, loosely spreading umbels, on stems 20 inches high. Plant four bulbs in a 5-inch pot as early as received in the fall, and they will immediately commence to grow, flowering in January and continuing in bloom for several weeks. 5 for 10c., doz. 20c., 100.....\$1.25

AMARYLLIS JOHNSONII

ALLIUM NEAPOLITANUM

AMARYLLIS

Bulbs bearing flowers of rare beauty, with large drooping bell-shaped lily-like bloom, varying in color from the richest crimson to pure white, striped with crimson or scarlet.

350. *Amaryllis Johnsonii* (or Barbadoes Lily).—The old favorite, and almost too well known to need description. The immense trumpet-shaped flowers, which measure from 6 to 8 inches across, are borne on strong, fleshy flower-stems and are of rich velvety crimson, each petal having a broad white stripe, contrasting beautifully with the deep red color. Large bulbs, 30c. each, postpaid. Mammoth bulbs, 50c. each, postpaid.

351. *Amaryllis Formosissima* (Jacobean Lily).—Dark scarlet, free blooming, splendid for pot culture, and can be grown in water like *Hyacinths*; flowers in summer if kept dry in winter. Each 10c., \$1.00 per dozen, postpaid.

ANEMONES

Beautiful and showy spring-flowering bulbs, producing brilliantly colored flowers, valuable either for outdoor planting or house culture. If planted indoors they should be left in same pots year after year, as they give best results when treated in this manner.

352. Choice Double Anemones.—Mixed colors. 3 for 10c., doz.....30c.

353. Choice Single, Mixed.—4 for 10c., doz.....20c.

ANEMONES

MAMMOTH CUBAN LILY

MAMMOTH CUBAN LILY

356. *Scilla Clusi*.—These are magnificent winter bloomers, producing enormous clusters of star-shaped blue flowers, often 3 feet in circumference. They are among the most striking flowers we have in our list. Bulbs very large and strong and sure to bloom. A charming variety for growing in pots; unlike the other sorts, this variety is not entirely hardy. First Size Bulbs, each.....15c.

CYCLAMEN

360. *Giant Cyclamen*.—There are many varieties of winter and spring flowering bulbs, but few can equal this magnificent giant strain of *Cyclamen* for its striking beauty and decorative effect. The flowers are very large, perfectly modelled and well borne, of short, stout stems; the foliage is also highly ornamental, and consequently even when the plant is not in bloom it is always a valuable and attractive addition to any window garden or greenhouse. No trouble need be expended in their culture, the best results being easily obtained by keeping the plants in a cool, light, airy place. Giant Mixed, each 20c., doz.....\$2.00
Cyclamen Seed.—Williams' Prize Mixed. Pkt. 25c., half pkt. 15c.

GIANT CYCLAMEN

FREESIAS

364. *Mammoth Pure White (Refracta Alba)*.—The flowers of this plant can hardly be said to form a spike, as the flowering stem after growing to a certain height runs horizontally, and the flowers are produced perpendicularly on this horizontal stem. As many as nine blossoms, each from two to three inches in length, are produced; they are deliciously fragrant, last a long time, and are very valuable for cutting, as the unopened buds expand freely when placed in water. Mammoth size, each 4c., 3 for 10c., per doz. 30c., per 100 \$1.50. Second size, each 3c., 4 for 10c., doz. 20c., 100.....\$1.25

GRAND NEW FREESIA—"PURITY"

365. This grand new variety is a type of pure White-Freesia that surpasses in size, floriferousness and purity of color all other Freesias. They should be planted early for best results. A half-dozen bulbs planted in ordinary soil in a pot or box will produce a profusion of delicious scented, pure white flowers. They are of the easiest culture, and are sure to grow and bloom. We offer one size only, first size bulbs. 5c. each, 12 for 50c., postpaid.

GLADIOLUS

368. *The Bride (Colvilli Alba)*.—Ready in November. Beautiful early-flowering Gladiolus, blooming in June and July, invaluable for cut flowers. Grown in 5 or 6 inch pots, 3 or 5 in a pot. It may be had in bloom in April and May. Although termed hardy, they are all the better for a slight covering of hay or straw put on about December 1st. Snow white. 4 for 10c., doz. 25c., 100.....\$1.00

369. *Blushing Bride*.—Very fine for forcing. Flowers are pink at throat, shading to white towards the edge of petals. 3 for 10c., doz. 30c., 100...\$2.00

GLADIOLUS

IXIAS

376. The *Ixia* is a beautiful little winter-flowering bulb, with slender low graceful spikes of bloom. The colors are rich, varied and beautiful, the centre always differing in color from the other parts of the flower, so that the blossoms expanding in the sun's rays present a picture of gorgeous beauty. Fine mixed varieties, various colors, 3 for 5c., doz. 15c., 100.....\$1.00

"HENDERSON'S

FREESIAS

BERMUDA "BUTTERCUP OXALIS"

380. A beautiful winter-flowering pot plant, of the easiest culture. Excellent for hanging baskets, and is a strong, luxuriant grower. The foliage is exceedingly attractive, and the flowers are of the purest bright buttercup yellow. Properly treated, will flower six weeks from time bulbs are planted. Each 4c., 3 for 10c., 12 for.....35c.

DOUBLE RANUNCULUS

Soil should be rich loam or clay mixed with a little sand and well manured. Plant in a cool, damp location, claws downward, about 5 inches apart and 3 inches deep. They must be well covered in winter.

383. Double Giant French.—Very large and double; colors, brilliant golden yellow, scarlet, white and rose. Bloom in June. Each 3c., per doz. 20c., per 100....\$1.00

384. Double Turban.—Hardier than the French; bright and showy. Each 3c., per doz. 20c., per 100.....\$1.00

385. Double Persian.—A distinct class, brilliant in color and flowering in great profusion. Each 3c., per doz. 20c., per 100.....\$1.00

BUTTERCUP OXALIS

SPIREA

(Ready in November.)

The prices for single roots include postage. The dozen rates are by express at purchaser's expense.

390. New Gladstone.—The best Spirea yet introduced; very large flowering, pure white, bearing 25 to 40 flower stalks at one time. Each 30c., postpaid; per doz. \$2 75, carriage extra.

391. Japonica.—Perfectly hardy, with numerous clouded panicles of feathery white flowers. It is largely grown in pots and splendid for cutting or table ornaments. Compact Clumps, each 20c., postpaid; per doz. \$1.20 by express, at purchaser's expense.

392. Queen Alexandra.—Pink. A beautiful new variety, entirely distinct from anything in this line, the color being a soft pink. A strong grower, free-flowering, and forces almost as easy as the other sorts. When grown indoors it should be kept cool when flowers are developing, this being necessary to bring out the delicate coloring. 50c. each, postpaid.

SPARAXIS

398. A beautiful class of bulbs allied to the Ixias, and requiring the same treatment, producing spikes of flowers of the most exquisite and brilliant colors. Mixed colors, each 3c., doz. 20c., per 100.....\$1.20

NEW VIRGIN MUSHROOM SPAWN

Free from Chance Types. Always Productive.
Yields a Sure and Bountiful Crop.

This new spawn is produced by a new method direct from virgin spores secured from the finest type of healthy, large, white, French Mushrooms. The method of propagation insures freedom from inferior types as well as the bacterial enemies so often prevalent in ordinary spawn. Sold in compressed tablets measuring $3\frac{1}{2} \times 2\frac{1}{2} \times 1\frac{1}{2}$ inches. Full cultural directions with each order. Tablets, 15c. each, by mail 18c.; \$1.50 per doz., by mail \$1.80.

ENGLISH MUSHROOM SPAWN

MILLTRACK

Fresh for planting now. Included with each order for Spawn is a free pamphlet giving directions for growing, also recipes for preparing and cooking. Per brick 15c., 5 for 70c.; by mail, brick 25c., 5 bricks \$1.15.

EGYPTIAN OR PERENNIAL TREE ONION

A true novelty in the Onion family, being entirely hardy. The young sets grow on top like top onions. These should be planted in the Fall. When once set out, without the slightest protection, they will come up year after year. For sweetness and tenderness they are unsurpassed. Earlier than any other variety of onions. Price, pint 15c., per qt. 25c., 2 qts. 45c., postpaid.

SULPHO TOBACCO SOAP

A WONDERFUL AND INEXPENSIVE INSECTICIDE.

Sulpho-Tobacco Soap is a powerful agent for the destruction of lice and insects. One or two applications will rid plants of the pests. Animals may be washed with same solution that is used for plants, or a lather may be made and applied with hand or sponge. Full directions with each cake. 3-oz. Cake makes $1\frac{1}{2}$ gallons prepared solution. 15c., mailed, postpaid, for 20c. 8-oz. Cake makes 4 gallons solution 25c. Mailed, postpaid, for 35c.

RENNIE'S PLANT FOOD

A Fertilizer made expressly for plants grown in the house, garden or conservatory. Free from odors, clean to handle, and, in addition to keeping the plants free from vermin, promotes in them a strong, healthy growth, and early and abundant blossoms. Soluble in water. Packages, each 15c. and 25c., by mail 25c. and 40c.

STERLINGWORTH PLANT FOOD TABLETS.—A new Scientific, Odorless, Concentrated Fertilizer for Potted Plants. Takes the place of liquid manure. It starts the plants at once into healthy and vigorous growth, and makes them grow and bloom luxuriantly. These tablets drive troublesome insects and worms from the soil. Trial size box, sufficient for 10 house plants for 3 months, 12c. postpaid; large size box, sufficient for 35 plants for 3 months, 25c. postpaid.

FRUIT PICKER

When the mouth of the picker is closed the fruit is drawn into the bag, which makes the picking the same as if done by hand. The choicest fruit which hangs out the farthest can be safely and easily secured while standing on the ground. Saves climbing and the use of ladders, and a child can use it. Simple, light and durable. Each 75c., by mail, postpaid .90c.

HYACINTH GLASSES

These Glasses are made specially for Hyacinth culture, and are charming ornaments for the window. Hyacinths can be grown in glasses without the slightest trouble, and always with good results. Price, either style, 20c. each; \$2.00 per doz. (Glasses cannot be sent by mail.)

SEEDS BY FREIGHT.—Always send sufficient to pay for bags. Cotton bags, each 30c.; second quality, seamless, each 25c.

TULIPS, HYACINTHS, ETC.

IN MANITOBA, SASKATCHEWAN AND ALBERTA
TULIPS are most successful, and can be planted with the assurance that a fine display of bloom may be had the following Spring.
HYACINTHS.—Not quite hardy enough for the severe winters. For indoor planting they are one of the best house bulbs known.
CROCUS.—Not so reliable as Tulips. Occasionally a large percentage of the bulbs winter kill. They should be well covered in the Fall for winter protection in order to secure a fairly good percentage of flowers in the early Spring.
DAFFODILS.—Not hardy enough. These should be planted indoors and treated like Hyacinths.
LILIES.—Lilium Tigrinum is the only Lily to withstand the winter. Other varieties of Lilies succeed well when grown in the house. Scilla Siberica and Dielytra as well as Paeonies, Iris (excepting Japan Iris) and Ranunculus, are all satisfactory and quite hardy.

ALBERTA RED WINTER WHEAT

The standard Fall Wheat of the West. This variety has been sown with splendid results in Alberta. Farmers wishing to try Fall Wheat in their locality should not experiment with other kinds. "Alberta Red" is also known under the name of "Kansas Red" and "Turkey Red." Fall Wheat may be put in on this season's breaking or sown on sod ploughed up after the hay has been removed in July. The land should be thoroughly prepared, and if any manure is available it should be applied to the land and worked in. Manure will cause the Wheat to ripen five to ten days earlier than unmanured land. Only the clearest and hardest sample obtainable should be sown. Our stock has been specially selected. Per lb. 20c., 5 lbs. 75c., postpaid; by freight, peck 50c., bush. \$1.60, 10 bush. \$15.00; bags extra.

Renzie's Tulips

THE ROYAL CANADIAN YACHT CLUB, ISLAND PARK, TORONTO

RENNIE'S "EVERGREEN" LAWN GRASS SEED.

Our "Evergreen" Lawn Grass Mixture is a perfectly balanced combination of the best fine-leaved, deep-rooting grasses. It will produce a fine, enduring sward of closely interwoven, firm, deep and elastic turf, which will not burn brown in summer. So perfect is the combination of grasses that they will flourish under the most varied conditions, continually growing during the different seasons and always maintaining, from year to year, a deep green, smooth and velvety sward.

This mixture does not contain any detrimental "annual" grasses for making a "quick show," and consequently a lawn once established with "Evergreen" will not need to be re-seeded for many years.

Careful cleaning of the best varieties makes this mixture as free as it is possible to make it from foreign matter. Directions how to prepare lawn, time to sow, etc., free on request. Lb. 30c., postpaid 35c. 10 lbs. \$2.70, postpaid \$3.20

Quantities to Use.—1 lb. for 400 sq. ft.; 5 lbs. for 2000 sq. ft.; 10 lbs. for 4000 sq. ft.; 15 lbs. for 6000 sq. ft.; 100 lbs. for 1 acre; 25 lbs. for $\frac{1}{4}$ acre; 50 lbs. for $\frac{1}{2}$ acre. If intended for renovating an old lawn, about half the above quantities are sufficient for the given space.

RENNIE'S "SHADY-NOOK" GRASS SEED MIXTURE.

The bare and unsightly patches often found under trees and in shady portions of the lawn can be made to grow a luxuriant and lasting turf by the use of our "Shady-Nook" mixture. This is a special mixture of grasses that flourish best in shaded situations, and never fails to revive the dead and sour places that often ruin the effect of an otherwise perfect lawn. Lb. 40c., postpaid.....45c.

RENNIE'S "GOLF LINK" GRASS SEED.

This is a special mixture of the finest grasses that will stand the wear and tear and retain its velvety appearance. Many of the largest golf links in this country use this mixture. Lb. 25c., postpaid.....30c.

RENNIE'S "BOWLING" LAWN SEED.

A mixture of strictly perennial grasses specially adapted to produce a close, fine enduring sward. Sow from 4 to 4 $\frac{1}{2}$ lbs. per rink (12 x 100 ft.) for a new bowling green lawn, half this quantity per rink to improve existing turf. Lb. 30c., postpaid.....35c.

SPECIAL QUOTATIONS.

We shall be pleased to quote special prices to Golf Clubs, Institutions, Parks, and others who require lawn grass and clover seeds in large quantities.
